Intermediate comprehension (B2.1)

Soft skills

Technical communication

Ability to explain technical things to non-technical people

Creativity

Ability to think outside the box and explore novel directions

Attention to detail

Ability to be precise and rigorous

Hobbies

Interests

Cinema, History of art, Humanities

Sports

Bouldering, Running, MMA

Dorian GAILHARD

PhD Student – Graph Generative Models for Electronic Design Automation (Expected May 2027)

PhD student in Computer Science at Télécom Paris (expected May 2027). Research focuses on graph generative models for Electronic Design Automation (EDA), with recent work on hierarchical graph and hypergraph generation methods. Background as a Télécom Paris engineer with strong foundations in AI and computer science.

Publications

- **Dorian Gailhard**, Enzo Tartaglione, Lirida Naviner, Jhony H. Giraldo. *Feature-aware (Hyper)graph Generation via Next-Scale Prediction*. International Conference on Machine Learning, 2026. [[PDF](#)] [[Code](#)]

- **Dorian Gailhard**, Enzo Tartaglione, Lirida Naviner, Jhony H. Giraldo. *HYGENE: A Diffusion-based Hypergraph Generation Method*. AAAI Conference on Artificial Intelligence, 2025. [[PDF](#)] [[Code](#)]

Work experience

PhD student

From May 2024 to May 2027 [Télécom Paris](#) Palaiseau

Supervised by [Jhony Giraldo](#), [Enzo Tartaglione](#) and [Lirida Naviner](#). Descriptions of the project and the papers can be accessed [here](#).

Topic: ML methods for Electronic Design Automation

Research intern

From May 2023 to October 2023 [Università degli studi di Padova](#) Padova, Italia

Supervised by [Francesco Rinaldi](#), the work can be accessed [here](#).

Subject : Continuous formulations for variants of the Maximum Clique Problem in hypergraphs, with an implementation in Python.

Topics : Clustering, Graph Theory, Optimization (Combinatorial and Continuous), Tensor Theory, Python, Operations Research

Education

M2 MVA (Maths, Vision, Learning)

From September 2022 to April 2023 [ENS Paris Saclay](#) Plateau de Saclay, France

The assignments and a more detailed list of the courses is available [here](#).

Topic: Very deep and technical Master in Artificial Intelligence, aimed at research.

Master of Science : Data Science

From September 2021 to June 2022 [Eurécom](#) Sophia Antipolis, France

The assignments and a more detailed list of the courses is available [here](#).

Topic: Introduction to Data Science, with a focus on the engineering side.

Master of Science : Engineering

From September 2020 to June 2021 [Télécom Paris](#) Plateau de Saclay, France

Specialization in Computer Science, with a broad curriculum. A group project done in Java and Python can be found [here](#).

Grandes Écoles Preparatory Classes MPSI-MP: Math, Physics, Computer Science

From September 2018 to June 2020 [Lycée Hoche](#) Versailles, France

Computer skills

Programming languages

Proficient: Python (PyTorch, Networkx, Matplotlib) ; **Familiar:** Matlab, C, C++ (SFML), Java (Swing, OpenCV)

Database, Web and Infrastructure

SQL, Spark, PostgreSQL, CSS, HTML, JavaScript, AWS services, Firebase services, Docker

Design applications

Gimp, Figma
